THE PRESIDENT AND HIS SALARY

Can He Live at Ease on the Income from His Savings?

"I shall not attempt to answer the question: How much of his salary does the president expend?" writes ex-President Harrison in an article in the Ladies' Home Journal, on "The Social Life of the President." "But those who think he can live at his ease after his retirement on the income from his savings should take account of several things: First, that the net income from safe investments does not exceed four per cent.; second, that the amount invested in a home yields no income, and third, that he must have a private secretary, for his mail will be so large that he cannot deal with it himself. A son of one of our most eminent presidents who had lost all of his means told me that it was pathetic to see his father, who was in ill health, laboring beyond his strength to answer the letters that came to him. But if the president retains a fair measure of health he will take care of himself. If he was ever capable of directing the affairs of the nation he may be trusted to administer his own business; and if he has won the esteem of his fellow-citizens, and has rightly valued it, he will not barter it for riches. To any vocation from which a man may be suitably called to the presidency he may suitably return."

Fire Started by Gasoline.
CLEVELAND, O., April 14.—An explosion of gasoline set fire to the new Bradley block, No. 270 St. Clair street, Wednesday morning. Three workmen, William Mullen, Samuel Wilson and Fred Prenechant, were badly burned and the occupants were panic stricken. Prenechant, in his endeavor to escape, jumped through a large glass window and was seriously cut. He may die.

She Took Paris Green.
CINCINNATI, April 14.—Mrs. Hausfeld, who lives on the Muddy Creek road, two miles from the city, died Wednesday morning from the effects of a dose of paris green, taken with suicidal intent Tuesday night. Dr. Mueskamp, of Cheviot, was called, and later Dr. Lehman, of Home City, but the efforts to save the woman's life were unavailing.

The smallest grain of aniline will color a ton of wine. A grain of manganate of potash will redden seven thousand times its weight of water. The most trifling disorder will disarrange every organ of the body and cause eventual disease and death. It is the little ailments neglected that make the big diseases. Most serious diseases have their origin in a disordered digestion and faulty nutrition. This is true of that most deadly of diseases—consumption. It is also true of nervous prostration and exhaustion and also of all forms of wasting disease. Ailments of this description may not only be prevented but cured by a resort to the right remedy.

An unailing cure for all diseases that have their origin in disorders of the digestion and faulty nutrition is found in Dr. Pierce's Golden Medical Discovery. It cures digestive disorders, restores the appetite, invigorates the liver, purifies and enriches the blood, builds healthy flesh and muscle and drives out disease germs. It cures 98 per cent. of all cases of consumption. Thousands have testified to these facts. Druggists who suggest substitutes are dishonest.

Mrs. Trish Dunham, of Sisterville, Tyler Co., W. Va., writes: "I should have been dead had it not been for your medicine. I was nearly dead when I began taking Dr. Pierce's Golden Medical Discovery and a pain in my side all the time, had but little appetite, and grew very thin. The 'Golden Medical Discovery' promptly cured the pain, restored my appetite, and increased my weight."

Dr. Pierce's wonderful free book, "The People's Common Sense Medical Adviser," will be sent paper-bound, for twenty-one cents in one-cent stamps to pay the cost of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y. For handsome, durable cloth covers, beautifully stamped, send ten cents more (thirty-one cents in all), to pay extra cost for this style of binding.
